Achievements/Tasks

- 2 Weeks Internship at Construction Site

Internship

Government Polytechnic Daman

Company - Ananaya Enterprises

- Project - demolition and reconstruction building(28.jun 2025--25 Nov 2025)

Choudhary contractors. NiA(noida international airport 5Dec 2025 till going)

Achievements/Tasks

- Site Preparation and Surveys:
 - Supervise geotechnical and topographical surveys.
 - Oversee demolition, clearing, and site setup.
- Permits and Safety Plans:
 - Ensure all necessary permits.
 - Review site-specific safety and environmental management plans.

During Construction

Runway, Taxiway, Apron Construction:

- Monitor earthworks, subbase, base course, and final asphalt or concrete paving.
- Verify line and level controls, slope gradients, and compaction per specs.
- Ensure grooving and friction testing is completed properly.
- Monitor Manpower work on watch n ward basis on live taxiway & after completion of work inform to concern follow me.
- Airfield Lighting and Utilities:
 - Coordinate with electrical teams for underground conduit installation before paving.
 - Ensure placement of AGL (Airfield Ground Lighting) bases and ducts as per layout
- Airside Safety:
 - Ensure proper barricading and lighting to avoid conflicts with airport operations.
 - Conduct safety briefings and enforce PPE and access controls.
- Coordination with Airport Authorities:
 - Manage Notice to Airmen (NOTAMs) if airfield sections are temporarily closed.
 - Communicate with Follow Me for any airside activity near active areas.
