

| state | $\Lambda$ -closure set |
|-------|------------------------|
| 1     | $\{1, 2, 3, 4\}$       |
| 2     | $\{2, 4\}$             |
| 3     | $\{3\}$                |
| 4     | $\{4\}$                |
| 5     | $\{5\}$                |

Find a minimum-state FA for the following FA that recognizes the same language.

Transition Table

| state | next state |   |
|-------|------------|---|
|       | a          | b |
| 1     | 2          | 3 |
| 2     | 3          | 5 |
| 3     | 4          | 3 |
| 4     | 3          | 5 |
| 5     | 2          | 5 |
